Subject: Planning Availability Sessions
Date: Monday, September 23, 2013 9:17:22 AM

All,

As most of you know, EPA is planning to hold at least two availability sessions on Allied Landfill as a part of our outreach program. I would like to hold it during the third week of October. To that end, I would like to have our first planning meeting next week. Please let me know your availability next week for a phone conference. I would like us to meet in person once we are further along. We can piggyback this onto our second groundwater meeting, which I would like to occur around October 15th.

The plan for the availability sessions is for them to be much like a poster session with each of us covering different topics. This is what I was thinking I would have each of us cover.

Jeff and/or Beth – details of each alternative

Scott – landfill (alts 2 and 4) engineering details

Jim – Allied and the city well-field

Michael K – on-site groundwater collection system

Paul – Past actions/fish tissue/RI

Me – Site risks/cleanup objectives

Please start thinking about what you would want to show to illustrate your topic.

Thanks,
Michael

Jan and Andrew, this email and future meeting invitations are just FYI.
